OUR  
PROMISE

THE ALLIANCE OF VIRGINIA & NEBRASKA

# ABOUT US

The Virginia-Nebraska Alliance (The Alliance) is a unique partnership between unlikely partners to address the national need to diversify the healthcare and research workforce. The Alliance was formed in September 2004 as a 501(c)(3) organization. The organization consists of Historically Black Colleges/Universities (HBCUs) within Virginia and Nebraska including J. Sargeant Reynolds Community College, the University of Nebraska Medical Center (UNMC) and Virginia Commonwealth University (VCU). In 2006 The Alliance welcomed the University of Richmond (UofR), the University of Virginia (UVA), and Eastern Virginia Medical School (EVMS) as academic partners.

## 4 PILLARS

- The establishment of a series of systematic strategies targeted toward the early cultivation of students as they pursue professional careers in the health, basic sciences and other disciplines.
- The installation of administrative and programmatic mechanisms purposed to stimulate the sharing of intellectual talent and technical expertise among and between the faculty of the member institutions.
- The identification and implementation of collaborative strategies for securing research funds thus leading to creative approaches to the reduction of barriers which perpetuate disparities in access to health care and resulting health outcomes.
- The identification and implementation of collaborative strategies for securing funding (infrastructure, training, program development, etc.) which will further enhance the educational environment of the partner institutions.

## OUR STUDENTS

Our students are a prime example of how we serve as a national model for accelerating the production of a more diverse professional workforce.

## OUR FACULTY

Our faculty comes from a wide range of medical backgrounds to assist our students in defining and reaching their goals.

*“This model partnership between academic health science centers and HBCUs can be replicated across the nation to find “missing persons” in healthcare and research professions.”*

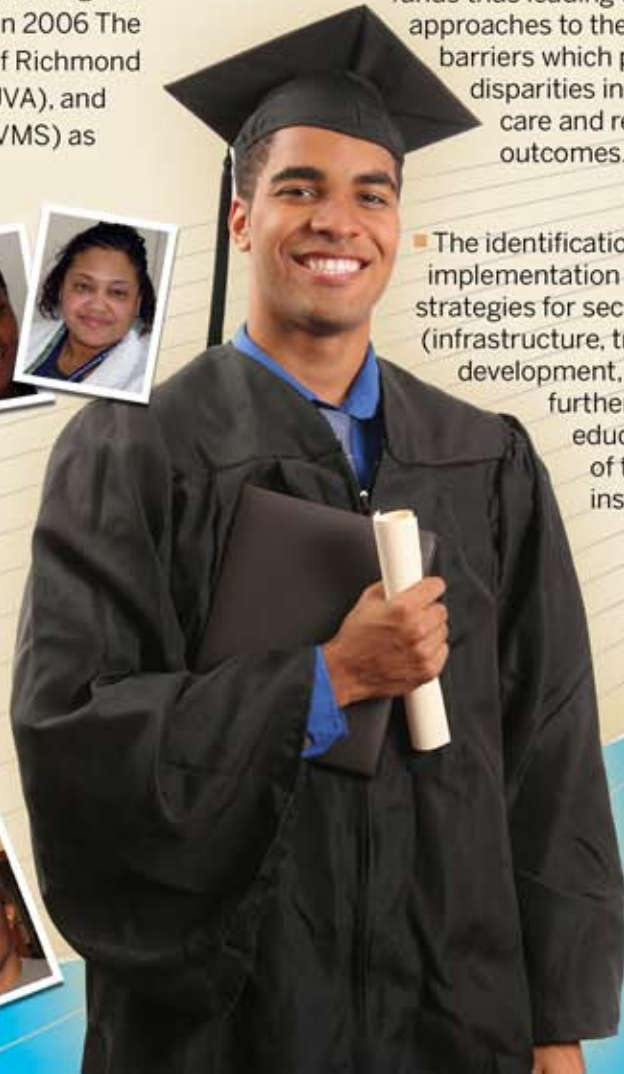

Dr. Louis W. Sullivan, MD  
Former Secretary of Health and Human Services  
President Emeritus, Morehouse Medical School  
Chairman, The Sullivan Alliance

*“I am thankful for this opportunity with the Alliance. This summer experience has definitely provided me with a better understanding of the medical community.”*

Brandi Frazier  
St. Paul's College

## OUR AIM

TO REDUCE HEALTH DISPARITIES AMONG MINORITIES BY INCREASING THE NUMBER OF MINORITY HEALTH CARE PROFESSIONALS IN THE UNITED STATES.
